You have choices for addressing FDA guidance pertaining to platelet safety. Our Platelet PGD is the easy platelet testing solution that:

1. Complies with FDA guidance without changing the types of platelets you transfuse
2. Increases your platelet supply and saves you money with 7-day dating of LRAPs in plasma
3. With 1 hour of attended time per day can test up to 6000 doses annually
4. Doesn’t cause shortages or reduce split rates
5. Doesn’t require costly capital equipment
6. Doesn’t require additional donor recruiting

Testing with Platelet PGD is safe, easy, and efficient — as proven at the hundreds of hospitals that use it every day with their current staff. And it’s cleared by the FDA for LRAPs in plasma or PAS C, pre-storage pools of leukocyte reduced (LR) whole blood derived (WBD) platelets, post-storage pools of LR or non-LR WBD platelets, and single units of LR or non-LR WBD platelets.²

1. Bacterial Risk Control Strategies for Blood Collection Establishments and Transfusion Services to Enhance the Safety and Availability of Platelets for Transfusion, FDA Sept 2019
2. Platelet PGD Test Package Insert Rev: J
Benefit from the proven solution.

**Platelet PGD provides:**

**7 DAYS**

*Safety:* 1:3069 detection rate in a culture-negative LRAP inventory tested within 24 hours of transfusion

*Availability:* enables 7-day dating of LRAPs in plasma for reduced outdating

*Savings:* pays for itself through reduced platelet discards with 7-day dating

7-day dating: Complies with FDA guidance, reduces outdating, saves money.
We surveyed 16 blood collection centers and 66 hospitals that use Platelet PGD to extend platelet dating to 7 days* — and the results speak for themselves.

We’re not the only people who think Platelet PGD is the best choice.

We asked PGD users to share their thoughts** about testing with Platelet PGD. Here are some of their responses.

“Useful tool. Helps protect the patients. Easy to do.”

“It does not add tech time. Easy to add to workflow.”

“Very easy to do and implement. Training is simple. Cost effective.”

“Easy to perform. Well worth it for inventory management and cost reduction.”

“Foolish not to do it. I can’t think of a downside.”
